Ms. Peggau: Based on the attached e mail message from Ms. Lopez Dated June 18, 2026 the deadlines to incorporate material into the staff report was Tuesday June 16, 2026.

Ms. Lopez then references the noon deadline to receive additional comments or information from all parties is Tuesday June 23 at noon. I have searched the BERNCO website

[2026/07/01 09:00 AM County Planning Commission Regular Meeting - Web Outline - Bernalillo County, New Mexico](#)

To no avail in finding the site plan drawings and written documentation regarding the removal of the school and day-care that has been referenced in the Applicants previous submissions of record whether it be in an additional attachment such as M. Attachment 12 nor in item q. BA2026-0001 Additional Documents.

Where are these referenced documents that were projected and discussed at the July 1, 2026 hearing for substantive review and understanding? No mention of these or the discussion process that I have been successful in finding in the documented date stamped record.

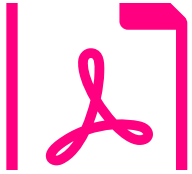

Just to confirm please tell me if this new site plan and details are on the record. If so, what date and time was it put on the portal for record or submitted to the appellant? If not, please explain.

Also, send me the new updated engineered drawings of the site plan that reflect the discussion in testimony with no school/day-care that ZA stated were on the record and discussed between the applicant, ZA and Board after the hearing was over.

I also want the new site plan was up on the screen during the discussion.

Thank in advance for your help and guidance.

Regards:
Pat Hauser
